A Personal Invitation to the Jerusalem Summit

Dear friend,

We are living in a decisive moment for the Church. Across the whole world, antisemitism is surging at an alarming rate following the October 7 terror invasion. At the same time, Israel is increasingly delegitimised — not only politically, but also within theological discourse. Even within Evangelical and Charismatic circles, old doctrinal errors are returning dressed in new garments and biblical clarity is being quietly eroded.

For this reason, we are urgently convening the Jerusalem Summit. Our aim is to equip Christian leaders to understand and respond to modern antisemitism, to restore biblical clarity on Israel, covenant and the Church, and to strengthen the Church's public and theological witness in a time of confusion.

This summit is intentionally practical. Participants will receive usable teaching from leading theologians and experts around the world, pastoral tools and resources ready for immediate implementation in churches, Bible schools and leadership networks. This is meant to be taught, preached and lived.

The Jerusalem Summit is especially for pastors, theologians, Bible teachers and leaders responsible for doctrine, education and public witness — for all who love Israel and care about the integrity of the Church.

I urge you to give the Jerusalem Summit priority.

With respect,

Dr. Jürgen Bühler
President

International Christian Embassy Jerusalem
